

The Beetroot Monthly

Hej, beets! It's your monthly portion of news, updates, and inspiration.

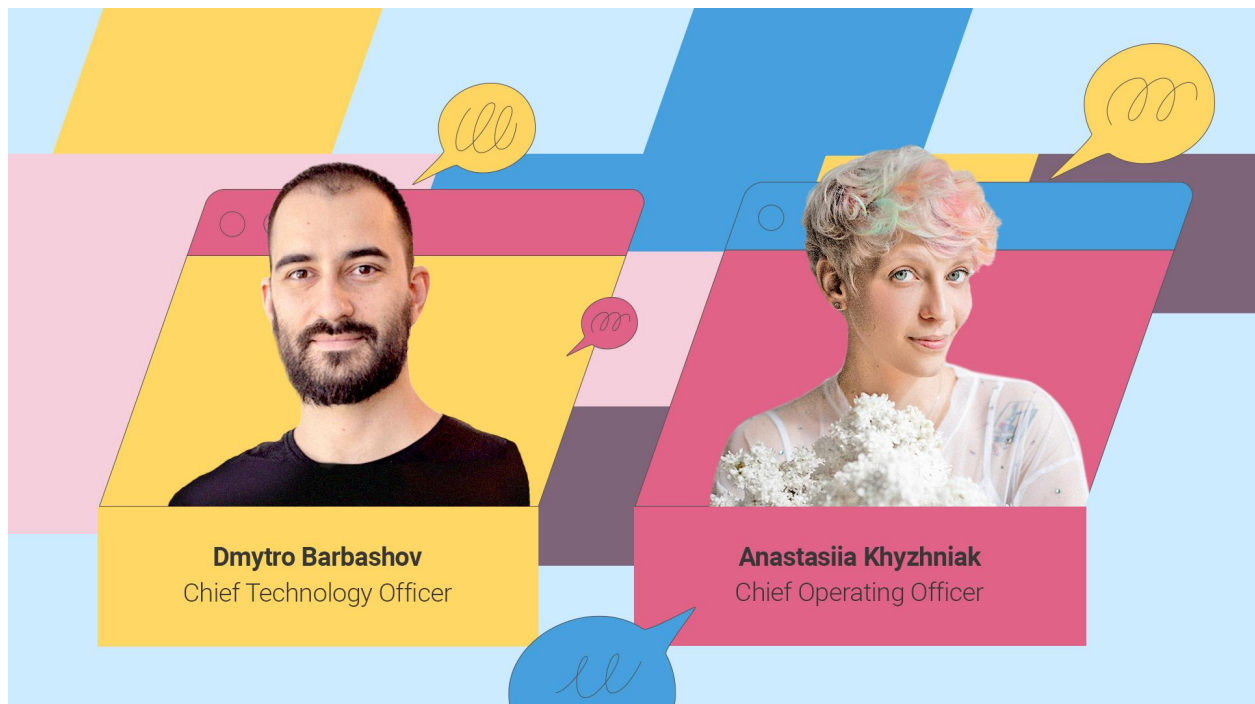

Beetroot Stories

2020 has already seen a lot of rethinking of the Beetroot Management Team, and we're happy to announce other exciting updates!

We're adding some vitamin C: COO and CTO to our borsh! That's right, a **Chief Operating Officer** and a **Chief Technology Officer**!

On January 1, **Nastya Khyzhniak** became Beetroot's **COO**. Nastya will harmonize our business processes and organizational design. The COO focuses internally, working with all Beetroot management teams and supporting day-to-day operations.

On the same day, **Dmytro Barbashov** began as Beetroot's **CTO**. Dmytro will coordinate and facilitate solutions to the full gamut of Beetroot's technology needs, and direct our research and development.

Beetroot among top ten Ukrainian employers for equality

Beetroot has been ranked one of Corporate Equality Index's top 10 companies for embracing diversity and equality in Ukraine, an accomplishment all the more impressive given it's our first year participating.

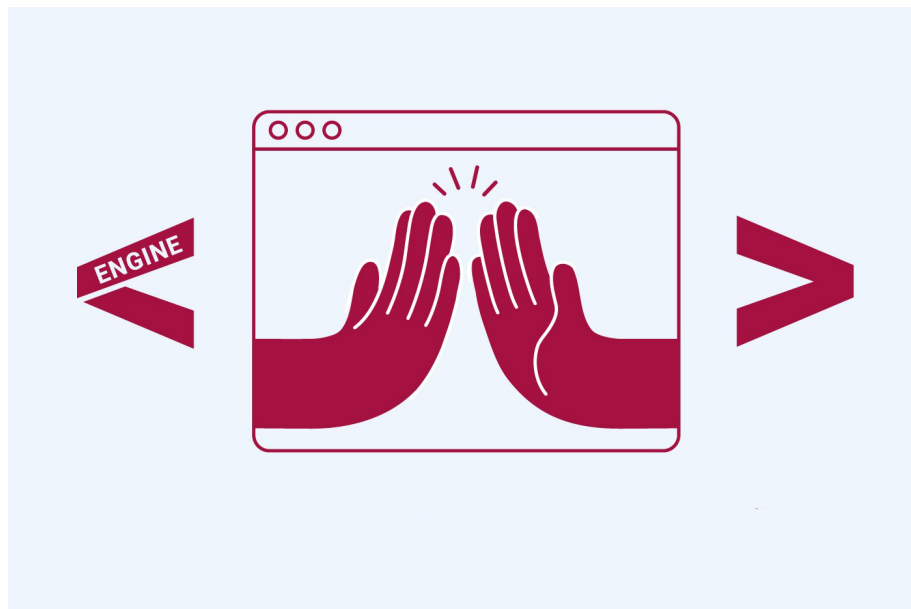

More Index rating information available on [Hromadske](#).

Upcoming events

Beetroot's first online conference, & regular meetups

ENGINE online-conference 1.0. [Register here](#). Our first get-together will be Friday, February 4, from 11:00 to 19:00. This is Beetroot's first-ever tech conference. We'll talk about various aspects and processes of development.

More information available on our [Facebook page](#).

DEVCHATA meetups continue! This is our 10th meetup, can you believe it? Join us every Tuesday at 18:00. Spoiler: we'll discuss how to sell your ideas to clients, time management, and much more.

Big Team Call and other Beets-exclusive events

Finally, that staple of Beetroot culture, the **BIG TEAM CALL**. Join the Big Team Call on Zoom at 17:00, Thursday, February 25 using [this link](#). We'll share an overview of Beetroot's news and plans, but also take the opportunity to just see each other and say Hi!

More Beets-exclusive February events to come – including a series of lectures on sustainability, newcomer onboarding with Andreas, fikas, and more.

Got an internal event question or proposal? [Get in touch!](#)

Look for links and updates in Beetroot Daily.

Opportunities within the Beetroot ecosystem

Communities

Developers from various Beetroot teams have created OpenJS, React, WordPress, .NET, and Python technical communities with monthly “Beetups.” Community coordinators Tanya and Diana are currently looking for speakers for our February, March, and April Beetups. If you want to present, just shoot an email to tatyana.nityagina@beetroot.se. The girls will help you choose a topic, prepare for the event, and do everything to make it an unforgettable success!

Academy

Want to have a positive influence on Ukraine's IT community and help cultivate a new generation of specialists?

Join Beetroot Academy's Teachers team! 2021 is the perfect time to pick up new skills, structure your knowledge, and do some good.

You'll receive:

- self-development, reorganizing and deepening what you know by teaching it
- onboarding and one-on-ones with our educational managers
- continuous support and pedagogical skill development
- access to a wealth of methodological material
- teaching workshops, lectures, and training
- no admin overhead; Beetroot Academy's team handle all operational issues
- ready-made lesson plans provided
- recognition via Beetroot Academy within Ukraine's IT community

Click below and select the course you want to teach!
